- For more information, please see "Connecting Voiis Stereo and Stereo Bluetooth Headset".
- For more information, please see "Connecting Voiis Stereo and PC/MAC".
- For more information, please see "Connecting Voiis Stereo and Mobile Phones".

Vois Stereo functions:

Connecting Voiis Stereo and Stereo Bluetooth headsets

On Music Transmit mode, you will be able to listen to the high quality music with Bluetooth stereo headset. Voiis Stereo will transmit music from your home stereo system (TV, DVD, CD, etc.) to stereo Bluetooth headset on Music Transmit mode.

The following section will explain how to connect Voiis Stereo with Stereo Bluetooth headset.

Step 1. Please connect the Audio Y-Cable that comes with the Voiis Stereo to the home stereo appliances as illustrated picture in "Using Voiis Stereo".

Step 2. Please insert the Power adapter to Power connector of the Voiis Stereo and plug the Power adapter to an electrical outlet.

Step 3. Please make sure the Power indicator light of Voiis Stereo is on.

Step 4. Please follow the instruction of Stereo Bluetooth headset to pair with Voiis Stereo.

Step 5. Press the **Function button** for 3 seconds until the Bluetooth indicator light flashes fastly. The Music Transmit mode LED is also turned on automatically. Voiis Stereo will automatically search the Stereo Bluetooth headset around the neighborhood to be paired with.

*Note: If you press the Voiis Stereo's **Function button** for 3 seconds, Voiis Stereo will be able to search for bluetooth headset [Music Transmit mode]. If you press the **Function button** for 8 seconds, it will be able to be paired by Bluetooth Phone [Music Receive mode].*

Step 6. When the pairing procedure completed, Voiis Stereo's Bluetooth indicator light will be slowly changed to indicate the successful connection.

Step 7. If it failed to complete the connection, the pairing mode will be exited automatically, which will take about 60 seconds. When the pairing mode ends, please repeat Step 4 to 6 to try again.

Connecting Voiis Stereo and PC/MAC

The following section will explain how to connect Voiis Stereo with PC:

Step 1. Please connect the Audio Y-Cable that comes with the Voiis Stereo to the home stereo appliances as illustrated picture in "Using Voiis Stereo".

Step 2. Please insert the Power adapter to Power connector of the Voiis Stereo and plug the Power adapter to an electrical outlet.

Step 3. Please make sure the Power indicator light of Voiis Stereo is on.

Step 4. Press the **Function button** on the Voiis Stereo for 8 seconds until the Bluetooth indicator light flashes fastly. The Music Receive mode LED is also turned on automatically. That means the Voiis Stereo is entering pairing mode and waiting to be connected from PC.

Step 5. Please refer to the user manual of your PC/MAC to search and connect to Voiis Stereo (PIN code: 0000).

Step 6. When the pairing procedure completed, Voiis Stereo's Bluetooth indicator light will be slowly changed to indicate the successful connection.

Step 7. If it failed to complete the connection, the pairing mode will be exited automatically, which will take about 60 seconds. When the pairing mode ends, please repeat Step 4 to 6 to try again.

Connecting Voiis Stereo and Mobile Phones

The following section will explain how to connect Voiis Stereo with mobile phones:

Step 1. Please connect the Audio Y-Cable that comes with the Voiis Stereo to the home stereo appliances as illustrated picture in "Using Voiis Stereo".

Step 2. Please insert the Power adapter to Power connector of the Voiis Stereo and plug the Power adapter to an electrical outlet.

Step 3. Please make sure the Power indicator light of Voiis Stereo is on.

Step 4. Press the **Function button** on the Voiis Stereo for 8 seconds until the Bluetooth indicator light flashes fastly. The Music Receive mode LED is also turned on automatically. That means the Voiis Stereo is entering pairing mode and waiting to be connected from Mobile Phones.

Step 5. Please refer to the user manual of your Mobile Phone to search and connect to Voiis Stereo (PIN code: 0000).

Step 6. When the pairing procedure completed, Voiis Stereo's Bluetooth indicator light will be slowly changed to indicate the successful connection.

Step 7. If it failed to complete the connection, the pairing mode will be exited automatically, which will take about 60 seconds. When the pairing mode ends, please repeat Step 4 to 6 to try again.

Note: To properly function Voiis Stereo, the handset used to connect with Voiis Stereo has to be equipped with Bluetooth A2DP (Advanced Audio Distribution Profile). Please check the user manual of the handset for details.
